Inspiration (*I saw the devil*):

Movie Summary : On a dark road, taxi driver Kyung-chul (Choi Min-sik) comes across a scared female motorist stranded in a broken-down vehicle. He pulls over -- but not to help her. When the woman's head is discovered in a local river, her devastated fiancé, Kim Soo-hyeon (Lee Byung-hun), a trained secret agent, becomes obsessed with hunting down her killer. Once he finds Kyung-chul, things get twisted. After brutally beating the murderer, Kim lets him go free, and a demented game of cat and mouse begins.

Game Story : On a desolate road cloaked in the inky darkness of night, two friends find themselves stranded. The car, their lifeline to civilization, has given up on them. With no other option, they begin to search for anything that might help fix their vehicle.

As they scour the roadside, one of them catches sight of a dimly lit, ancient house looming in the distance. The house, with its creaking walls and eerie silhouette, seems to whisper promises of refuge and assistance. Hopeful but wary, your friend (chris) decides to venture inside in search of help.

As he crosses the threshold, the door creaks ominously behind him, sealing his fate. What awaits him within the shadowy corridors and dusty rooms is far from the help he sought. Instead, he finds himself ensnared in a web of terror and despair.

You (jason), the main character, must summon your courage and step into the house to find your friend. Every creak, every shadow, and every whisper in the darkness will

test your resolve. Can you uncover the mysteries of the old house and rescue your friend from the grip of its malevolent presence? The fate of your friend—and perhaps your own—depends on your bravery and cunning in the face of the unknown.
